

Safety Data Sheet

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product identifier **FOOD & DAIRY CLEANER # 899**
Other Means of Identification: Organic Acid Salt
Product Type: Liquid
Recommended Uses: Acid Replacement
Restrictions on use: Do not use with chlorates, nitrates, hypochlorites or alkaline materials.
Supplier's Details: **Kem Tech Industries, Inc**
 N8076 Maple St.
 Ixonia, WI 53036
 Tel: 1-262-567-8020 Fax: 1-262-567-6114

Emergency Telephone: ChemTel Inc.
Number (800)255-3924, +1 (813)248-0585

SECTION 2: Hazards identification

This material is considered hazardous by the OSHA GHS Hazard Communication Standard (29CFR1910.1200).

Classification of the substance or mixture: Corrosive to Metals - Category 1
 Eye Damage - Category 1 H318 Causes serious eye damage/Irritation
 Acute Toxicity (Oral) - Category 4
 Acute Toxicity (Dermal) - Category 4
 Serious Eye Damage—Category 1
 Skin Corrosion - Category 1A

GHS Label Elements Hazard Pictograms

GS05

GHS07

Signal Word: DANGER

Hazard Statements: May be Corrosive to Metals
 Causes Serious Eye Damage and Skin Burns
 Harmful if Swallowed or in Contact with Skin

Precautionary Statements

Prevention Keep in original container
 Wear protective gloves/protective clothing/eye protection/face protection
 Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product.

Response: Absorb spillage to prevent damage
 IF SWALLOWED: Call a Poison Center or a doctor/physician if you feel unwell.
 IF SWALLOWED: Rinse mouth. **Do not** induce vomiting
 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. Immediately call a Poison Center or doctor/physician.

Safety Data Sheet

Trade name: FOOD & DAIRY CLEANER # 899

Storage: Store in corrosive resistant containers such as fiberglass, polyethylene, polypropylene or containers with resistant inner liner. Store locked up.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Other Hazards: None Known

SECTION 3: Composition/information on ingredients

Substance/Mixture: Mixture

Chemical Name	%	CAS Number
Urea Monohydrochloride	<60	506-89-8
Alkyl dimethyl benzyl ammonium chloride	<2	68391-01-5
Alkyl dimethyl ethylbenzyl ammonium chloride	<2	68956-79-6
Proprietary Inhibitor	<1	No Data

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

SECTION 4: First aid measures

4.1 Description of first aid measures

Eye Contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. In case of inhalation of decomposition products

Skin Contact: Flush contaminated skin with plenty of water. Continue to rinse for at least 20 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Ingestion: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do Not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Safety Data Sheet

Trade name:	FOOD & DAIRY CLEANER # 899
--------------------	---------------------------------------

Most Important Symptoms/Effects, Acute and Delayed

Potential Acute Health Effects

Eye Contact: Causes serious eye damage

Inhalation: Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Skin Contact: Causes severe skin burns

Ingestion: Harmful if swallowed. Irritating to mouth, throat and stomach.

Over Exposure Signs/Symptoms

Eye Contact: Adverse symptoms may include the following:
Pain or irritation. Watering, Redness. Corrosion

Inhalation: No known significant effects or critical hazards. Cough

Skin Contact: Adverse symptoms may include the following:
Irritation. Redness. Corrosion

Ingestion: Harmful if swallowed. Corrosion. Abdominal pain

Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

Notes to Physician: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Specific Treatments: No specific treatment

Protection of First Aiders: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

SECTION 5: Fire-Fighting Measures

Extinguishing Media

Suitable extinguishing Media: Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media: None known

Specific Hazards Arising:

from the chemical At temperatures above 60°C/140°F acid action on most metals may release hydrogen, a highly flammable and explosive gas.

Hazardous thermal decomposition products Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
nitrogen oxides
hydrochloric acid

Special protective actions for fire-fighters: No special measures are required.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Safety Data Sheet

Trade name:	FOOD & DAIRY CLEANER # 899
--------------------	---------------------------------------

SECTION 6: Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

For non-emergency Personnel: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non emergency personnel".

Environmental Precautions: Do not allow material to come in contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and Materials for Containment and Cleaning Up

Spill: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste Disposal

SECTION 7: Handling and Storage

Precautions for Safe Handling

Protective Measures: Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Advice on General occupational hygiene: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.

Conditions for Safe Storage, including any Incompatibilities: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination

Safety Data Sheet

Trade name:	FOOD & DAIRY CLEANER # 899
--------------------	---------------------------------------

SECTION 8: Exposure Controls/Personal Protection

Control Parameters

Occupational Exposure: None
Limits

Appropriate Engineering: Good general ventilation should be sufficient to control worker exposure to airborne
Controls contaminants.

Environmental Exposure: Emissions from ventilation or work process equipment should be checked to ensure **Controls** they comply with the requirements of environmental protection legislation.

Individual Protection Measures

Hygiene Measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/Face Protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

Skin Protection

Hand Protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body Protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before Handling this product.

Other Skin Protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory Protection: Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

SECTION 9: Physical and Chemical Properties

Appearance

Physical State: Liquid. [Clear]
Color: Colorless
Odor: Not available
Odor Threshold: Not available

Safety Data Sheet

Trade name: FOOD & DAIRY CLEANER # 899

pH: 0.7 typical [as is]
Melting/Freezing Point: < -30°C
Boiling Point/Range: 100°C (212°F)
Flash Point: >93.3°C (>200°F)
Evaporation Rate: >1 (Butyl acetate = 1)
Flammability (solid, gas): Not available
Lower and Upper Explosive: Not available
(flammable) Limits
Vapor Pressure: <0.013kPa (<0.1mmHg) [room temperature]
Vapor Density: >1 [Air = 1]
Relative Density: 1.21 +/- 0.2
Solubility: Easily soluble in the following materials: water
Partition Coefficient: Not available
n-octanol/water
Auto-Ignition Temperature: Not available
Decomposition Temperature: Not available
Viscosity: Not available

SECTION 10: Stability and Reactivity

Reactivity: No specific test data related to reactivity available for this product or its ingredients
Chemical Stability: The product is stable
Possibility of Hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to Avoid: No specific data.
Incompatible Materials: Reactive or incompatible with the following materials: oxidizing materials. This material may be extremely hazardous in contact with chlorates and nitrates. Contact with hypochlorites (eg. Chlorine bleach, sulfides or cyanides) will liberate toxic gases. Contact with alkaline materials (eg. Aqua ammonia) will generate heat.
Hazardous Decomposition products: Decomposition products may include the following materials:
 carbon dioxide
 carbon monoxide
 nitrogen oxides
 hydrochloric

SECTION 11: TOXICOLOGICAL INFORMATION

Acute oral toxicity : Acute toxicity estimate 500 mg/kg
Acute inhalation toxicity : 4 h Acute toxicity estimate : . 40mg/l
Acute dermal toxicity : Acute toxicity estimate : 1,100 mg/kg
Skin corrosion/irritation : Causes severe burns
Serious eye damage/eye irritation : Irreversible effects on the eye

Safety Data Sheet

Trade name: FOOD & DAIRY CLEANER # 899

Sensitization

There is no data available

Carcinogenicity

No components are listed as carcinogens by IARC, ACGIH, OSHA or NTP.

Specific Target Organ Toxicity (single exposure)

There is no data available

Specific Target Organ Toxicity (repeated exposure)

There is no data available

Aspiration Hazard

There is no data available

Information on the likely routes of exposure: Dermal contact. Eye contact. Inhalation. Ingestion.

Potential Acute Health Effects

Eye contact: Causes serious eye damage. Corrosion Irreversible effects on the eye
Inhalation: Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin Contact: Redness, Pain, Corrosion
Ingestion: Irritating to mouth, throat and stomach. Cough

Symptoms related to the physical, chemical and toxicological characteristics

Eye Contact: Adverse symptoms may include the following:
Pain or irritation Watering. Redness. Corrosion

Inhalation: No known significant effects or critical hazards.

Skin Contact: Adverse symptoms may include the following:
Irritation Redness Severe burns

Ingestion: No known significant effects or critical hazards.

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects: No known significant effects or critical hazards.
Potential delayed effects: No known significant effects or critical hazards.

Long term exposure

Potential immediate effects: No known significant effects or critical hazards.
Potential delayed effects: No known significant effects or critical hazards.

Potential chronic health effects

General: No known significant effects or critical hazards.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: Not Mutagenic (OECD 471)
Teratogenicity: No known significant effects or critical hazards.
Developmental effects: No known significant effects or critical hazards.
Fertility effects: No known significant effects or critical hazard

Numerical measures of toxicity

Acute toxicity estimates There is no data available.

Safety Data Sheet

Trade name: **FOOD & DAIRY CLEANER # 899**

SECTION 12: Ecological Information

Ecotoxicity

Environmental effects : Very toxic to aquatic life

Ingredients Toxic to fish: : Quarternary ammonium compound

SECTION 13: Disposal Considerations

Disposal Methods:

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport Information

	DOT	TDG	IMDG	IATA
UN Number	Not regulated	1760	1760 1	1760
